Introduction

Bristol City Council needs more money to pay for the services we provide to people in Bristol.

This is because:

- The cost of providing services is going up a lot.

- More people need services from the council.

To make sure the council doesn't run out of money next year, we think we will need to:

- Ask people in Bristol to pay more in taxes to the council each month.

- Change some of the services we provide - this will include providing less of some services, and stopping some services completely.

We want to know what you think

We still want to keep helping people in the ways that they need.

Before we decide how much we ask people to pay and how we change our services, we want to know what you think.

Please read this document and tell us what you think by answering the questions. You don't have to answer all the questions if you don't want to.

We need your answers by Friday, 23 December 2022.

Council Tax

Bristol City Council is looking at how much **Council Tax** we ask people to pay next year 2023 to 2024.

Council Tax is money that people pay to their local council for services like libraries, emptying bins and fixing the roads.

If we ask people to pay more Council Tax it will help pay for the services we need to provide.

Question 1: Which of these options would you prefer?

No increase to Council Tax. This means the council may not be able to pay for all the services people need.

A small increase in Council Tax of about 28 pence a week for most people. Bigger houses would pay more, up to 73 pence extra a week. This would give the council £2.5 million extra to pay for services next year.

An increase in Council Tax of about 57 pence a week for most people. Bigger houses would pay more, up to £1.46 extra each week. This would give the council £5 million extra to pay for services next year.

An increase in Council Tax of about 85 pence a week for most people. Bigger houses would pay more, up to £2.19 extra each week. This would give the council £7.5 million extra to pay for services next year.

Extra money for social care

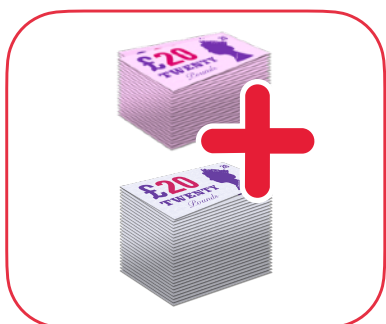

Social care is the extra support some people need with everyday things such as personal care.

There are many more people in Bristol who need social care.

If the council asks people to pay money on top of Council Tax, it will help to pay towards the extra cost of social care.

The extra money of top of Council Tax is called a 'social care precept'.

Question 2: Which of these options would you prefer?

No extra money to pay for social care.

An extra 28 pence a week for most people, on top of Council Tax, to pay for social care. Bigger houses would pay more, up to 73 pence extra a week.

An extra 57 pence a week for most people, on top of Council Tax, to pay for social care. Bigger houses would pay more, up to £1.46 extra each week.

An extra 85 pence a week for most people, on top of Council Tax, to pay for social care. Bigger houses would pay more, up to £2.19 extra each week.

Bigger increases in Council Tax

The government is thinking about telling councils that they can charge even more Council Tax and money towards social care.

This would help councils to improve the services they provide.

Question 3: If the government allows it, would you be ok to pay even more Council Tax?

Yes

No

Question 4: If the government allows it, would you be ok to pay even more on top of your Council Tax, towards social care?

Yes

No

Ways we can save money

Please tell us what you think about these ideas for the council to save money. These are ideas that we have thought about a lot.

Children and young people

Idea 1: Finding and training more **foster parents** so we don't have to pay for children to live in expensive places outside Bristol.

A **foster parent** is someone who looks after a homeless child in their own home.

Question 5: Do you agree or disagree with this idea?

Agree a lot

Idea 2: Giving more special help to foster parents to look after children who need a lot of support and care. This will save money and also be better for the children.

Question 6: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Idea 3: We want to have more local homes for children who need a lot of support and care. This will save money and also be good for the children.

Question 7: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Idea 4: Providing more support to family members or friends who look after teenagers who can't live with their parents. This will mean the teenagers can stay with the family member or friend and will not need more expensive support later.

Question 8: Do you agree or disagree with this idea?

Agree a lot

Idea 5: Do more to keep our experienced social workers so we don't have to pay more for temporary workers.

Question 9: Do you agree or disagree with this idea?

Agree a lot

Idea 6: Have more space in the children's homes that are run by the council.

This will stop us having to pay for as many expensive places outside Bristol, and will be better for children

Question 10: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Disagree a lot

Climate change

Climate change is all about big changes in the weather. For example, storms getting worse than they used to be. Climate change will be bad for people, animals and plants in Bristol and around the world.

People cause climate change by burning gas or oil. We burn oil when we travel and we burn gas and oil when we heat buildings.

The council is working to change how we travel and heat our buildings so there is less climate change.

Idea 7: Decrease our costs and find other types of funding to pay for the work we do to reduce the changes to the climate. This will mean the council can spend less but still get our work done.

Question 11: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Health and care

Idea 8: Change the way we run our support for adults so that we still provide enough support, but with fewer staff. This will mean we will have to stop providing some things that people like.

Question 12: Do you agree or disagree with this idea?

Agree a lot

Agree

Idea 9: Check that companies we pay to provide care are using the money in the right way. This will mean the services are fair and good value.

Question 13: Do you agree or disagree with this idea?

Agree a lot

Idea 10: See if another company could run the East Bristol Intermediate Care Centre. If we cannot find another company we would close the centre.

This centre works with adults who are getting better after being in hospital.

Question 14: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Idea 11: Reduce the service we set up to help people pay off their debts to the council.

Instead we would let people know about other debt advice that is available.

Question 15: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

Disagree

Disagree a lot

Idea 12: Many of our services are for people who don't have much money. We have to work out how much money people have, so we know how much help we can give them.

We want to make sure this work is well organised so that we are not doing extra work that isn't needed.

Question 16: Do you agree or disagree with this idea?

Agree a lot

Agree

Neither

The council helps some organisations pay less **Business Rates**.

Business Rates are taxes that businesses pay to the council.

Idea 13: Change the rules so that most businesses pay the full Business Rates. Charities and other local community organisations would pay more than they do now, but less than the full Business Rates.

Question 17: Do you agree or disagree with this idea?

Agree a lot

Idea 14: Keep our rules on who can pay less Business Rates.

We should check more closely which organisations pay less.
