15:00	Depart

WORKSHOPS

MAKING YOUR ASSET SUSTAINABLE

Good practice examples and support around generating income and investment, along with a discussion on the barriers to achieving sustainability.

FUNDING JOURNEYS

A look at the different funding available at different points during the transfer and development of an asset along with a discussion around the gaps are and issues that need to be resolved.

PLANNING FOR ASSET TRANSFER

A look at the landscape of support in place from public and third sector organisations around non financial issues (e.g. legal, governance, H&S, and other compliance issues) and how we identify the gaps in support and what to do about them.

HOW CAN AGENCIES WORK TOGETHER MORE COHERENTLY

Some good practice examples of the public, third and private sectors working together to use their combined leverage and skills to create a structure of support that allows good local solutions to be found to asset transfers. How could we encourage more of this across Wales and what are the barriers?
