

Review of Polling Districts and Polling Places 2019 Acting Returning Officer's response

01 July 2019

Dear Sir/Madam

Please find below my comments on the review. Since the last polling districts and polling places review in 2015, all venues have been kept under regular appraisal and reflect the on-going changes that have occurred within the intervening years. Therefore the approach I have taken is to ensure consistency and certainty for members of the public by only making changes to polling districts and polling stations if it is necessary. Additionally changes have been proposed which directly benefit the voter experience in the polling station by reducing the maximum number of potential voters in the station and thus reducing the risk of queues.

Current and future choices of polling station have been primarily based on the availability of potential venues coupled to the following criteria:-

- A venue reachable for all voters regardless as to the means of travelling there.
- A venue within 1 mile safe walking distance.
- No more than 1,500 polling station electors (based on projected 2023 electorate numbers) at a venue, unless the venue is capable of being a dual station – 2 polling stations within one building).
- Polling station must stay within the ward.
- A voter must not walk past another in-use polling station to get to their own one.
- Minimise the use of Portacabins.

In summary I have recommended the following changes to polling district boundaries which affect 17 wards:-

- 3 polling districts to be deleted
- 8 new ones created
- 46 boundary changes.

Additionally I have recommended changes to polling stations which affect 17 wards and include:-

- 21 polling station changes
- 11 requests for suggestions for alternatives for specific polling districts.

Yours faithfully

Tim O'Gara

Acting Returning Officer
Bristol City Council

Review of Polling Districts and Polling Places 2019 Acting Returning Officer's response

Why boundary changes have been proposed

Between the last review in 2015 and projected to the mid-point that proposed changes will be in force for (2021), the population of Bristol City is expected to increase by nearly 6%. By considering trend analysis of population increases, and known developments within the city, these proposals are being made to ensure that the arrangements are fit for purpose both now and into the future.

Why some wards have a proposed increase in the number of polling districts

In addition to the increased electorate expected to be voting in each ward, as Acting Returning Officer I am required to ensure that polling stations are fit for purpose. Part of this requirement is to ensure that the voter experience is free from interruption and delivered in an efficient way with queues kept to a minimum. Where polling districts have substantially more than 1,500 electors I have proposed either splitting the polling district into two or moving voters to another polling district.

It should be noted that splitting a polling district into 2 does not normally increase staffing levels as the existing number of staff are employed across the 2 stations handling the same number of voters, but employed in a more efficient manner. Additionally where polling districts have been split, they are mostly within the same venue, but using distinct separate areas or rooms. Hence costs are kept approximately the same.

Definitions

What is a Polling District?

A polling district is the area created by the sub-division of a parliamentary constituency into smaller parts. A polling district will not breach ward boundaries.

On polling day all electors in a polling district will attend the same polling place to vote (unless they have opted to vote by post). One copy of the electoral register will be produced for each polling district, listing the electors in that polling district.

What is a Polling Place?

A 'polling place' is the geographical area, in which a polling station is located. It must be designated so that polling stations are within easy reach of all electors from across the polling district.

What is a Polling Station?

A polling station is the actual area where the process of voting takes place, e.g. a room in a community centre or school.

Review of Polling Districts and Polling Places 2019
Acting Returning Officer's response

Acting Returning Officer's comments

- 1) Figures are based on population trend analysis predictions up to 2023 and known building developments within the ward.
- 2) Feedback is welcome, including suggestions for alternative polling stations that meet the needs of all voters.
- 3) The ward is expected to have a 40% increase in eligible electorate up to 2023. As a result I propose a change to all polling districts in order to ensure the efficiency of staff in the polling station and help to avoid queues. This will also necessitate the creation of 2 more polling districts.
- 4) CENA: current polling station is no longer available for hire, the proposed polling station was used for the May 2019 election.

Total No. of Voters in Polling Stations ¹	9,191
Total No. of Polling Stations	7 (1 dual, 5 singles)
UK Parliamentary Constituency	Bristol East
Polling District Physical Location	See ward map

My proposals for polling stations and alterations to polling district boundaries are set out below.

Polling District	Polling Place	Current Polling Station	Proposed Change		
			Boundary Change	Polling Station Change	No. of Voters in Polling Station *1
ESVA	Whole of Polling District	Stapleton Church Hall, 23 Park Road, BS16 1AZ	No	No change	734
ESVB	Whole of Polling District	Bristol Metropolitan Academy, Snowdon Road, BS16 2HD	No	No change	858
ESVC	Whole of Polling District	May Park Primary School, Orchard Hall, Coombe Road, BS5 6LE	No	No change	1,691
ESVD	Whole of Polling District	All Saints Church, Grove Road, BS16 2BW	No	No change	1,433
ESVE	Whole of Polling District	All Saints Church, Grove Road, BS16 2BW	No	No change	1,392
ESVF	Whole of Polling District	Rose Green Centre, Gordon Road, BS5 7DR	Yes ³	No change	1,671
ESVG	Whole of Polling District	Crofts End Church, 1 Crofts End Road, BS5 7UW	Yes ³	No change	1,412

Acting Returning Officer's comments

- 1) Figures are based on population trend analysis predictions up to 2023 and known building developments within the ward.
- 2) Feedback is welcome, including suggestions for alternative polling stations that meet the needs of all voters.
- 3) ESVF and ESGV: Move electors from ESVF to ESGV to improve equality of number of voters between stations. This will improve the efficiency of staff in the polling station and help to avoid queues.

SGCG	Whole of Polling District	St Michael's Church Hall, Two Mile Hill Road, BS15 1BQ	No	No change	820
SGCH	Whole of Polling District	Two Mile Hill Primary School, Kingsway, BS15 8AA	Name change only ⁴	No change	1,094

Acting Returning Officer's comments

- 1) Figures are based on population trend analysis predictions up to 2023 and known building developments within the ward.
- 2) Feedback is welcome, including suggestions for alternative polling stations that meet the needs of all voters
- 3) SGCB and SGCC: Merge into one polling district
- 4) In order to keep the sequence of polling district labels (A, B, C...), this polling district has been renamed SGCC

Review of Polling Districts and Polling Places 2019
Acting Returning Officer's response
